forwarding the detailed estimates for the works to be carried out in connection with the Viceregal visit. Subd with a comparative statement.

As regards item 1(a) -

It is for consideration whether a portion of this expenditure should not be met out of the ordinary maintenance grant of the P.W.D. for the annual maintenance ~~of~~ of the portion of this road included within the Municipal limits a contribution of Rs 800/ is being paid annually to the Municipality by the P.W.D. It is therefore not clear why the cost of repairs to the road viz. Rs 2970/- should be met by the P.W.D.

As for item 2 - Excluding the Sum of Rs 3000/- required for

The Diary file received from the Private Secy to H.H. (vide page 9 of the Notes) has been incorporated with this -

No. 2619 dy

1) In the Opinion of the Private Secy to H.H., the Estimate sanctions Rs 3000 already sanctioned for the Gardens Dept separately, and Rs 1200 provided for the Special Establishment would be Rs 90 200, ~~Cont~~ very near the original Estimate (Page 9) Para 1 the Special Establishment has already been ~~after~~ sanctioned in the PW D Sett (vide Para 2 of Ch Engr's letter 71 U.), the cost being debitable to Special works. Metalling has practically to be included; ~~the total amount Rs 97400~~

2) The original Estimate of the Chief Engr indicated in the Chief Engr's note in the last Para of page 6 has not been received.

3) As regards the amount asked for road repairs, the Chief Engineer says that it is in addition to the usual repair funds & now asks for only Rs 21030, as against Rs 27000 originally asked.

As regards the provision for repairing Mysore Irwin Road it is subd that Rs 25000 mentioned in the letter of 3-9-23 includes (1) the estimated cost of repairing the provincial roads passing through the city viz., Rs 2970/- and (2) the cost of repairs to Hardinge road viz. Rs 1000/- (vide page 2 of the letter). After deducting these two items the estimated cost of Mysore Irwin road comes to Rs 21030/- As such it does not seem necessary to write to the Executive Engr the whole estimate has to be sanctioned in orders

It is proposed to increase the grant to be expended by the Public Works Departments from ---- Rs.60,000 to Rs.99,400. I do not know what effect this addition will have on the total estimate of expenditure on the Viceroy's visit. The amount set aside for this purpose is Rs.3 lakhs and as I have represented on a previous occasion, it is desirable to keep a part of this amount free for unforeseen demands the necessity for which may be felt later on. It may be considered whether items of work like those noted in the margin are required for the occasion. If they are not, it is desirable to leave them

them out or reduce the expenditure on them. Since th budget was sanctioned, additional demands on our cash resources have arisen and I note a few of them below:

Grant of loan to the Mysore Municipality	Rs. 2 lakh
Additional capital expenditure on Krishnarajsagara Works. (The figure noted against this item is that mentioned by Mr. Cadambi).	" 5 "
Special repair works on account of damages done by the rains. (The figure mentioned against this item is a rough estimate.)	" 2 "
Miscellaneous items like expenditure connected with the Reforms, grant of interest on the Supari Cess Fund, improved scale of pensions to menials, etc.	" 1 "
Total ..	Rs. 10 lakhs

To the above has to be added the expenditure on the Viceroy's visit and if this is taken at Rs.3 lakhs, the total will be Rs.13 lakhs. The need for minimising revenue expenditure and reducing the calls on our cash resources is great and I would invite attention to this fact.

SIR,

I have the honour to inform you that the Private Secretary to His Highness the Maharaja of Mysore in his D.O. letter No. 1023 dated the 26th June 1923, has intimated that H.E. the Viceroy will be visiting the State during the next cold ---- weather and works that have to be done at Karapur and elsewhere will have to be started as early as practicable. A copy of --- his D.O. is herein enclosed for information. As desired by him, Mr. Krumbiegel and myself had been to Karapur on the 29th June 1923 with a view to arrange for road repairs and works at Karapur; and as decided upon after joint inspection, ----- instructions have been issued to the Executive Engineers concerned to get up all necessary estimates at an early date. D.O.No.1023 dated the 26th June 1923, from the Private Secretary to His Highness the Maharaja of Mysore, to the Chief Engineer of Mysore, Bangalore.

As you know, the Viceroy is coming here during the next cold weather. It is desirable that any works that have to be done at Karapur and elsewhere should be started as early as possible.

I should, therefore, suggest that you and Mr. Krumbiegel should go to Karapur, as soon as possible, and make arrangements for carrying out the works there. Mr. Krumbiegel knows exactly what has to be done.

	23200

The quantities for the different items are based on the sanctioned estimates for works as executed during the visit of H.R.H. the Prince of Wales.

A sum of Rs.3,000/- is also required for laying out grounds, clearing jungles, etc. This work will be carried out by the --- Superintendent, Government Gardens. Including this amount, the total for Marapur works will be 26200

(3) Daria Doulat Bagh.

The works proposed to be carried out are of a miscellaneous -- nature, such as, white and colour washing, painting, repairing locks, etc., and are necessary to make the buildings look neat and tidy for the occasion. The amount required for repairs to Daria Doulat Buildings is Rs.3,580/- and that for tidying up the Seringapatam town is Rs.1,620/-

Two estimates amounting to Rs.46,134 and Rs.9,100 were sanctioned by Government in the Public Works Department in September 1919 and ---

34

and November 1920, respectively, for carrying out certain improvements to the Daria Dowlat Bagh at Seringapatam. Provision had been made ---- therein for painting the ceiling and improving the approach road. These two works have not yet been executed and it is reported by the Executive Engineer that there is an unspent balance of Rs.5,881/-, on the ----- estimates referred to above and that these works will be carried out now. A sum of Rs.4,800/- is required for these works and will be applied for separately. This amount is not included in the estimate submitted.

(4) Government House.-

The estimate for improving the main building amounts to Rs.25,400 and has been prepared in accordance with instructions from the Private -- Secretary to his Highness the Maharaja. The main items of improvements are as follows:-

In continuation of my letter of the 8th instant regarding the estimates for work to be carried in connection with the ensuing Viceregal visit, I am directed to state further as follows:-

(i) Why a sum of Rs.2,970 said to be the cost of ~~filling up~~ metalling the deviated portion of the road from mile 2/90 to 7/90 as per estimate received from the Chairman of the Mysore City Improvement Trust Board, should be included in the estimate of works to be carried by the P.W.D., and why in any case the cost should be debited to the Viceregal visit account.

(ii) On previous occasions no special provision was made for additional establishment. I am to enquire why a sum of Rs.7200 is provided on this occasion especially as it is understood that the ordinary grants of the P.W.D. have been greatly cut down.

Sir,

With reference to your letter No.G.4493/V.V.4-2 the 8th September 1923 enquiring whether a portion of the --- expenditure for the special repairs of the Mysore-Manantody Road, the Hunsur-Begur Road and the Seringapatam roads in connection -- with the ensuing Viceregal Visit cannot be debited to the Annual Repair grants for the roads in question, I have the honour to --- inform you that the amount now provided is in addition to the --- usual Annual Repair grant available for expenditure. The road surface has to be improved for the occasion and this will not be --- possible with the mere Annual Repair grant. I have inspected -- the road and have reduced the quantity of work so as to keep down the additional grant as far as possible-

2. In this connection, I may mention that a sum of Rs. 67,830/- was sanctioned for the special repairs of the Mysore-Manantody -- road in connection with the visit of His Royal Highness the Prince of Wales in January 1922. A sum of Rs. 21,030/- only has now been asked for for the purpose. The estimated amount for repairs of these roads as submitted by the Executive Engineers was very much

higher, and every endeavour has been made to bring down the amount to the lowest minimum possible and no further ------ reduction is feasible-

3. The estimates as submitted may kindly be sanctioned-

Sir,

With reference to your letter No.G.4586/V.V. dated the 10th September 1923 and in continuation of my letter No.B.1385 dated 15th September 1923, regarding the estimates for works connected with the Viceregal visit, I have the honour to reply as follows:-

(1) Metalling the deviated portion of the Mysore-Manantody Road in 2-7/90

The deviation of the road to a length of five furlongs was undertaken by the Trust Board at the time of the last visit of His Royal Highness the Prince of Wales in January 1922. Metalling this bit is reported to have not been done at that time to allow the embankments to settle. It was a work undertaken by the --- Trust Board and the initial cost of the deviation was ordered to be met out of the special grant sanctioned for the Royal Visit. The Chairman now proposes to take up the metalling also and ----- requests that, as a special case, the cost of metalling the ------ deviated portion may be ordered to be met from the grant to be -- sanctioned for the ensuing Viceregal visit. So at his request

the amount is now included in the present estimate. If, however, this is not approved, the Chairman, Mysore City Improvement Trust Board will be informed accordingly so that he may arrange to find the necessary funds out of the Trust Board Budget Estimates, if - possible.

(2) Special Establishment.

The formation of the Special Sub Division for eight months and the entertainment of temporary establishment at a cost of --- Rs 891/- per mensem has been sanctioned by Government and a copy - of the order directing that the cost of the special establishment be debited to the estimate to be sanctioned for special works is herein enclosed for information. The cost of the Special Sub-Division formed in connection with His Royal Highness the Prince of Wales' Visit was also charged to the special works, though it was not then shown as a distinct item in the original estimate. This may kindly be approved. Since the number of subordinates and officers working in Divisions cannot be reduced, the ------ establishment required for works in connection with the ------- Viceregal Visit has to be treated as extra and to be specially --- appointed-

SIR,

With reference to correspondence ending with this office letter No.B.1386 dated the 15th September 1923 re. the estimates for works connected with the ensuing Viceregal Visit to the State, I have the honour to forward herewith, for favour of sanction, an estimate amounting to Rs.682/- for carrying out certain additions and alterations in the electric installation in the Government House at Mysore.

2. The report attached to the estimate explains the necessity for the work proposed and the estimate has been countersigned by the Private Secretary to His Highness in token of his approval thereto.

3. In the consolidated estimate for improving the Government House at Mysore forwarded with this office letter No.B.1154 dated 3rd September 1923 provision has been made for glazed tile flooring only to portions of the new bath rooms. The Private Secretary to His Highness now desires that the whole floor area of the three bath rooms should be provided with glazed tiles. This roughly estimated to result in an excess of Rs.1,760/- over the original provision of Rs.1,035/- A regular estimate has been called for, and, on receipt, it will be forwarded for formal sanction. In

50

In the meanwhile, the work has been ordered to be proceeded with.

4. If the excess cannot be included in the estimates submitted already the excess will be asked to be passed in accounts if it happens to be small on the whole. A revised will be submitted if the percentage of excess goes high.

B a n g a l o r e.

Sir,

Adverting to correspondence ending with my letter No.B. 2030 dated the 20th October 1923 regarding the carrying out of certain additions and alterations to the Government House at -- Mysore in connection with the ensuing Viceregal Visit to the -- State, I have the honour to forward herewith a copy of the memo of further additions and alterations to the building ordered by the Private Secretary to His Highness during his inspection of works on the 25th October 1923. Pending formal sanction to a regular estimate, the Executive Engineer has put the works in hand with a view to complete them before the Viceregal Visit. The detailed estimates are being prepared by the Executive ----- Engineer and on their receipt in this office with the counter-signature of the Private Secretary to His Highness, the same will be forwarded to you for sanction and allotment of funds-

2. The items of works referred to are not included in the ---- consolidated estimates for works sanctioned in G.O.No.G.10-12/V.V. 4-23-63 dated the 17th October 1923. The excess due to extra

orks may amount to Rs 5,000 or so.

I have the honour to be,

Sir,

Your most obedient servant,

K. R. Seshacha

Ag. Chief Engineer of Mysore,
Roads and Buildings.

Memo of additions and alterations to the Government House --- ordered to be carried out by the Private Secretary to His Highness during his inspection on 25th October 1923.

MAIN BUILDING.

1. The verandah by the side of the Spiral Stair Case in the rear is to be converted into a Maid's room by constructing a brick wall to a height of 2½ feet alround except on the Western side where a door is to be provided. Above this brick wall, glazed screen is to be fixed with a window in each bay.

2. In the turret room now constructed on the Western side, a --- middle floor is to be provided in level with the Servant's room -- landing. As this newly prepared room is for accommodating a Valet, a bath room is to be constructed in the Servant's room. Two ----- doors are to be inserted in the cross wall of the middle floor one leading to the Valet's bath room and the other to the Servant's -- room landing. Owing to the introduction of this new room, the -- ventilators therein have to be replaced by windows.

3. To provide a pucca terrace passage at the level of the first floor leading to the open terrace of the Wine Godown from the ---- Dressing room in the first floor and to replace one of the windows by a door.

4. The present Bengal terrace on the landing of the new Stair --- Case on the first floor is to be changed into pucca terrace one --- taking the roof level somewhat lower than that of the adjacent Main room. A partition wall is to be put in it so that the Southern -- portion of it will be the passage leading to the Bed room. and the remaining portion with a bay window on the Northern side will be the bath room.

5. For all the important rooms outside doors are to be provided with Mortice locks.

OUT-HOUSES

1. The terraced carriage shed which is being altered to provide two sets of living rooms on either side (i) for Mr.Ramble and the other for the Resident's Chaffeur as per Private Secretary's ---- orders during his previous inspection is to have ventilators over the doors and windows on the Eastern and Western outside walls.

2. A temporary shed for accommodating extra carriages is being constructed close to the above buildings as per Private Secretary's orders during his previous inspection.

3. To provide doors for the new Milk shed on the Northern and Southern sides using the old trelles available. The screen wall allround this Milk shed is to be finished for the present with ---- simple coping as per sketch and trelles work will have to cover -- over this later on.

4. To insert five more windows in the Furniture Godown using old windows as far as possible.
